

Fonteverde presents a range of new Aesthetic Medicine treatments, with a few little tricks to enhance one's beauty. Provided by expert hands in order to eliminate tiredness and the rigours of time, and to conceal those little wrinkles and remove blemishes caused by the sun or by ageing. For the body, there are innovative therapies to combat fat and cellulite.

For mountain lovers, Fonteverde proposes "Ski and Spa". This new programme combines the well-being of the spa with the winter sport par excellence, taking in the ski slopes of Monte Amiata and excursions into the Parco Faunistico.

Grotta Giusti, after 160 years of activity, presents itself in a new guise. The cave, our cave, is a genuine miracle of nature.

Now it has been given a little facelift to make it even more beautiful to your eyes, so come and behold. You will find new programmes enabling you to go diving in an underground lake, as well as a new thermal swimming pool reserved exclusively for hotel guests. The Medical Spa presents **LONGEVITY**, an innovative and personalised preventative programme designed to slow down the processes of biological ageing. For those of you with a sweet tooth, Cioccolosità is back, a weekend rich in tastings and events dedicated to the world of handmade chocolate.

Bagni di Pisa caters especially for women with the package "Shopping & Spa". A tour with a personal shopper among the finest designer labels and markets of Forte dei Marmi, and at the end of the day a series of invigorating treatments at the spa. For the younger ones, the secrets of the carnival floats of Viareggio will be revealed during the parades offered in the package entitled "The Magic of the Carnival". The "Lose weight in Tuscany" programmes offer a detox alternative after the Christmas festivities. Packages of three, five or seven nights to help you lose a few of those extra pounds, re-establish healthy eating habits and engage in some physical exercise. A holiday so we can start again from ourselves, to understand who we are, that we need to love ourselves, and at Bagni di Pisa they teach us how to do it. With simplicity and patience, ensuring the acquisition of the right tools so we can get it right every time.
